

## COVID Operational Plan

### **Before arriving at the Field**

- Have any of the individuals, coming to the event, been asked to self-isolate from any governing bodies?
- Has any of the individuals, coming to the event, travelled to other, more restrictive, health zones in the last 14 days?
- Do any of the individuals have any symptoms, as listed in the following passive screening questionnaire, that are not previously known symptoms not related to COVID (ie. Asthma, allergies, etc)
- Please make sure that all items are well marked with your child's name before coming to the field. This includes water bottles, hats, sun glasses, etc. Anything not marked will be tossed in the "contaminated" pile and will only be recoverable at a later date.

### **Arriving at the Field**

Please enter the playing field via the parking lot/playground side; crossing the small foot bridge. All individuals are to report to the shed area in order to complete the passive screening and disinfect their hands on arrival. Disinfectant will be provided, if you are sensitive to certain scents or alcohol based disinfectants, please consider bringing your own. At this time, make sure that your child has their equipment, and if required, ask for equipment as there are limited supplies. Once screening is complete, please go directly to your seating area to leave space for all other individuals getting screened.

### **Distancing Requirements (Public)**

Distancing requirements shall be followed by all individuals taking part in Hanwell Sports activities; any and all coaches, board members, and other officials with Hanwell Sports have the right to remove you from the premises if rules are disregarded. Please be courteous to all other individuals within the playing field; we all want to watch our kids enjoy these activities.

1. All individuals, once on the premises, must wear a mask at all times; youths taking part in the activity are able to remove their mask once the activity begins.
2. Individuals who are not part of their bubbles, as described by Public Health, must remain 6 feet apart AND wear a mask even when distancing is possible.

3. All youth taking part in the activities will bring their own equipment for the entirety of the event; This includes a soccer ball, baseball, tennis ball, glove, penny or secondary shirt. If the child does not come equipped with required equipment, there may or may not be supplies available to them for the evening.

**Distancing requirements (Hanwell Sports Members)**

1. Coaches and field coordinators must conduct a passive screening for all individuals coming onto the field; upon arrival, confirm that the public health passive screening questions have been reviewed. If this was not done, or questions are not readily available, please refer them to the posted passive screening questionnaire.
2. Coaches and field coordinators shall ALWAYS wear their mask during the entirety of the event.
